SUMMARY

Aspiring data/business/finance analyst actively seeking an internship to apply my expertise in data analysis and visualization. Having recently earned the Google Data Analytics Professional Certificate, I've successfully led projects that drive strategic insights and improve decision-making. With hands-on experience in SQL, R, Python, and data visualization tools, I've boosted campaign performance and engagement metrics through data-driven analysis. Recognized for my communication, collaboration, and problem-solving abilities, I'm eager to bring fresh perspectives and deliver impactful solutions in a fast-paced, results-driven environment.

SKILLS

- **Certifications:** Google Data Analytics Professional Certificate
- **Databases:** SQL (MySQL, SQL Server, Google BigQuery)
- **Programming Languages:** R & Python (Pandas, NumPy, SciPy, Matplotlib)
- **Data Visualization Tools:** Tableau, Microsoft Power BI, ArcGIS
- **Excel:** VLOOKUP, Conditional Formatting, Pivot Tables, Slicers, Macros & VBA
- **Cloud Platforms:** Microsoft Azure (Data Studio, DataBricks)
- **Office Suite:** Microsoft Suite (Word, PowerPoint, Access)
- **Professional Skills:** Database Management, Problem-solving, Analytical Methodologies, Statistics.

EDUCATION

Grambling State University, LA, USA

Bachelor of Science: Computer Information Systems (with a certificate in **Data Analytics**)

Graduation Date: May 2028

GPA: 4.0/4.0

WORK EXPERIENCE

Sodexo Magic – Marketing Team

Analyst Intern

Grambling, LA, USA

September 2024 – Present

- Conducted and analyzed the Student Cafeteria Experience Survey at the McCall Dining Center, significantly boosting responses from 89 to 219, leading to a 146% increase in feedback for improving services for students.
- Assessed marketing campaign performance with **Google Analytics** and **Excel**, identifying key trends that enhanced targeting and engagement strategies by 25%, leading to a 15% increase in Instagram followers. Leveraged quantitative analysis skills to provide valuable insights.

PROJECTS

Data Science Job Simulation (British Airways) – Forage

September 2024

- Leveraged **Python** and **Pandas** to conduct comprehensive data analysis, including data cleaning and feature selection, resulting in actionable insights for British Airways' customer booking patterns.
- Evaluated **classification** machine learning models using cross-validation and performance metrics, visualizing feature importance and correlations with **Seaborn**, leading to a 7% improvement in model accuracy.

Web3 Security Data Analytics (Webacy) – Externship

August 2024

- Analyzed and labeled 10 smart contracts with 30 distinct risk tags, enhancing the identification and understanding of blockchain vulnerabilities by 25%.
- Implemented advanced correlation analyses in **Python**, creating heatmaps, bivariate, and multivariate plots to visualize relationships between binary risk tags, resulting in improved data interpretation efficiency.

LEADERSHIP & EXTRACURRICULAR

Goldman Sachs – 2025 Possibilities Summit

Participant

Remote

December 2024 – Present

- Selected to join a year-long program designed to expand my professional network and develop key industry skills; Engaging in exclusive workshops, case studies, and mentorship sessions focused on investment banking, asset management, and financial markets.

Thurgood Marshall College Fund (TMCf) – 2025 NexTech Innovation Challenge

Participant

Remote

November 2024 – Present

- Engaging in a competitive virtual innovation program to design and pitch solutions using **Metaverse technology**, emphasizing advanced digital collaboration, entrepreneurial thinking, and emerging tech expertise.
